

INDEPENDENT MANUFACTURER'S HARNESS SYSTEMS

We can make wiring harness systems for any American manufacturer (except FORD MOTOR CORP.), but in some cases we will need the original system to research. The following systems are complete with all harnesses and loose wires unless otherwise specified. All systems are covered by our limited warranty found on the HOME page. If your automobile is not listed we will need the original system for research (refer to No System Listed on HOME page for details).

**NOTE: SAVE YOUR OLD WIRING UNTIL THE NEW SYSTEM IS INSTALLED AND TESTED.
EVERY YEAR HAS UNIQUE LIGHT SOCKETS AND / OR FITTINGS WHICH MUST BE REUSED.**

All prices subject to change without prior notification.

INDEPENDENT MANUFACTURER'S HARNESS SYSTEMS (Continued)

We can make wiring harness systems for any American manufacturer (except FORD MOTOR CORP.), but in some cases we will need the original system to research. The following systems are COMPLETE with all harnesses and loose wires unless otherwise specified.

The earliest automobiles used flexible metal conduit to contain all wiring. For these years we provide a WIRE & CONDUIT KIT, which contains all wire, terminals, and stainless steel conduit needed to rewire the automobile. You must reuse the junction boxes, conduit cap ferrules, light sockets and special connectors (special instructions are included).

Those listed as FRONT SET contain all of the wiring for: dash, engine, head lights, and park lights. We have included with each FRONT SET a kit of wire and terminals so you can wire the rear electrical components. All systems are covered by our limited warranty found on the HOME page. If your automobile is not listed we will need the original system for research (refer to No System Listed on HOME page for details).

**NOTE: SAVE YOUR OLD WIRING UNTIL THE NEW SYSTEM IS INSTALLED AND TESTED.
EVERY YEAR HAS UNIQUE LIGHT SOCKETS AND / OR FITTINGS WHICH MUST BE REUSED.**

All prices subject to change without prior notification.
