

## NOTES ON ALL GENERAL MOTORS HARNESS SYSTEMS

We have done a great deal of research on General Motors wiring harnesses in order to provide you with the most authentic wiring systems possible. While doing this research, we had the opportunity to study original harness blueprints and specifications for some General Motors products. All of the data we examined specified that the wire was to have a natural cotton base color (a light tan) braided over the rubber insulation, with tracer colors woven in for wire identification. The tracer colors would consist of a single thread parallel tracer or two single thread crossing tracers, as specified on the harness blueprints. After the cotton braid was applied to the wire it was to be given a protective coating consisting of a heat, oil and water resistant varnish. This protective coating would color with age and cause the original wire to appear dark yellow, orange, or brown. All the wire we use for General Motors vehicles conforms to the original color codes as specified by the manufacturer.

One note on our General Motors harness systems: At this time we cannot supply the original type GM twist connectors, the rear body plug, or the turn signal switch plug. We do provide substitute connectors used in that era and instructions for the salvage and reuse of your original plugs if you so desire. We have been unable to find a supplier whose connectors have the original appearance and quality to meet our standards.

### PONTIAC & OAKLAND HARNESS SYSTEMS

The following lists contain the systems we can make. The systems listed as "Complete" contain all of the standard wiring for the front and rear sets. Those listed as "Front Set" contain all of the wiring for: dash, engine, head lights, and park lights. Those listed as "Rear Set" contain all of the wiring from the dash to the rear tail lights. All systems listed are covered by our limited warranty found on the HOME page.

If your automobile is not listed we will need the original system for research (refer to No System Listed on HOME page for details).

**NOTE: SAVE YOUR OLD WIRING UNTIL THE NEW SYSTEM IS INSTALLED AND TESTED, EVERY YEAR HAS UNIQUE LIGHT SOCKETS AND / OR FITTINGS WHICH MUST BE REUSED.**

## PONTIAC HARNESS SYSTEMS (continued)

Note - From 1939 to 1954 we do not have the rear wiring harnesses for most models. We have included with each front set a kit of wire and terminals so you can wire the rear electrical components. If you wish to provide your original rear set when you order, we will research it and make a new set to match it for \$ 230 .

**NOTE: SAVE YOUR OLD WIRING UNTIL THE NEW SYSTEM IS INSTALLED AND TESTED,  
EVERY YEAR HAS UNIQUE LIGHT SOCKETS AND / OR FITTINGS WHICH MUST BE REUSED.**
