

## Foreign Automobiles

We can make wire harness systems for foreign makes, but in some cases we will need the original system AND the wiring diagram from the shop manual (refer to **No System Listed** for details). The systems below are those we have researched and manufactured to date. They are complete with all the wires in the automobile. We have custom made systems for Jaguar, Mercedes, and Triumph. Please note the foreign manufacturers have some special wire color patterns that we are unable to duplicate, for these we substitute the closest patterns available (see wire & materials).

We can also cover your new factory wire harness with the authentic cotton braiding (see braiding service under wire & materials). All systems are covered by our limited warranty.

Year	Make	Model	Price
1950-53	Morgan	Plus 4	\$720
1954	Morgan	4/4	\$800
1955	Morgan	Plus 4/Plus 4	\$820
