

## PLYMOUTH HARNESS SYSTEMS

The following chart lists the harness systems we can make. Systems listed as "Complete" contain all wiring in the automobile. Those listed as "Front Set" contain all the wiring for: dash, engine, head lights, and park lights. There are some systems which are not

"Complete", these have the exceptions listed in the harness column. If you purchase one of these systems and can supply us with the original missing wires for research, we will complete the set for you at no extra charge. All systems listed are covered by our limited warranty. To add turn signals prior to 1940 add \$100 and tell us type of turn signal switch.

If your automobile is not listed we will need the original system for research (refer to No System Listed).

NOTE: SAVE YOUR OLD WIRING UNTIL THE NEW SYSTEM IS INSTALLED AND TESTED. EVERY YEAR HAS UNIQUE LIGHT SOCKETS AND / OR FITTINGS WHICH MUST BE REUSED.
